

An artist with a reputation for embodying both depth and precision in his playing, guitarist Patrick Lui has established himself as both a notable performer and a gifted teacher.

Prize winner of several competitions, including the first

Hong Kong Guitar Competition, the Yamaha Guitar Competition, and the Hong Kong, Macau, and Canton Invitational Guitar Competition, a finalist in the East Carolina Guitar Festival, and a semi-finalist in the Tokyo International Guitar Competition, his performances have been heard in the United States, Canada, Japan, and China. He has performed as a recitalist, a soloist with orchestras, and an ensemble player.

Patrick Lui is as comfortable with being a teacher as he is with being a performer. Lui has taught at Arizona State University, Salem College, Catawba College, North Carolina School of the Arts, and Forsyth Technical Community College. He currently teaches at the Weaver Academy for Performing and Visual Arts. Dr. Elliot Frank, Professor of Guitar at East Carolina University, writes, "Over the past few years I have had the opportunity to hear, teach, and judge students of Patrick Lui at various events around the country and I have found him to be an outstanding teacher of young guitarists. His students have consistently excelled in regional, national, and international competitions. Most recently two of his students won prizes in the Guitar Foundation of America's inaugural youth competition, an event of international significance. Not only does Patrick provide the highest quality instruction for his students, he is equally committed to the personal and emotional growth of his students. I know of no other teacher who produces such consistently high results with such young students." Since 1995, Lui has dedicated himself to the education of young guitarists. His students have won over 50 prizes in the Columbus State University Guitar Symposium, the East Carolina Guitar Competition, South Carolina Guitar Competition, the Appalachian Guitar Festival, the Greensboro Music Academy Guitar Competition, America String Teachers Association Guitar Competition and most recently, the Guitar Festival America Competition.
